Priyansh Sharma

Software Developer | FastAPI · REST APIs · MySQL · AWS

Noida, India | +91 8791426635 | sharmapriyansh482@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Software Developer experienced in designing and developing RESTful APIs, JWT-based authentication and authorization, and database-driven applications using FastAPI, Pydantic, SQLAlchemy and MVC architecture. Built 4+ Python projects covering secure authentication, real-time analytics and asynchronous API design. Skilled in MySQL/PostgreSQL database design, query optimization, AWS (EC2, S3) deployment, Docker and Git-based Agile workflows, with a focus on clean, maintainable, scalable code.

TECHNICAL SKILLS

- **Backend (Python):** Python, FastAPI, Pydantic, REST API Development, JWT Authentication, OAuth2, Role-Based Access Control (RBAC), Asynchronous Programming, MVC Architecture
- **Databases:** MySQL, PostgreSQL, SQL, SQLAlchemy (ORM), Database Design, Query Optimization, Data Migrations
- **Cloud & DevOps:** AWS EC2, AWS S3, Linux, Docker, Git, GitHub, Postman, Agile
- **Web & Other:** JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, AJAX, React (basic), CakePHP

EXPERIENCE

Junior Software Developer | CodeFire Technologies Pvt Ltd, Noida, India **Sep 2025 – Present**

- Designed and integrated RESTful APIs with AJAX-driven UI updates, removing full-page reloads and cutting average interaction response time by 30%.
- Optimized backend logic and database queries for large data volumes, improving load times by 40%; managed schema changes and data migrations across MySQL production environments.

Key Project Contributions:

- **Physician–Patient Healthcare Platform:** Built backend business-logic modules for physician, patient, nurse and pharmacy workflows (Python, CakePHP; HTML, CSS, JavaScript).
- **Crop & Farmer Management Platform:** Developed backend workflows for crop types, subscriptions, sales and unsold-crop tracking, plus UI components (HTML, CSS, JavaScript).
- **Business Management Platform:** Built backend business logic and API functionality; collaborated on integration with a React-based frontend.

PROJECTS

Shrink – URL Shortener with Click Analytics | github.com/PriyanshSharma80/shrink-url-shortener

- Full-stack URL shortener with real-time click analytics; supports custom aliases, link expiry, and logs each click by timestamp, IP and user-agent. **Tech:** FastAPI, Pydantic, SQLAlchemy, React

Secure Notes App with JWT Authentication | github.com/PriyanshSharma80/Notes_App

- Production-ready REST API with JWT-based authorization and bcrypt password hashing; encrypted user data at rest and role-based access on all notes endpoints. **Tech:** FastAPI, MySQL, JWT, REST API, Python

Jarvis Voice Assistant | github.com/PriyanshSharma80/Jarvis_voice_assistant

- Python voice assistant combining speech recognition, text-to-speech, web searches, app launches and system-level voice commands. **Tech:** Python, SpeechRecognition, pyttsx3

Mood-Based UI Customizer | github.com/PriyanshSharma80/Mood-Based-UI-Customizer

- Real-time emotion detection using face-api.js for in-browser facial analysis, with an async Python API serving model predictions to drive dynamic UI theming. **Tech:** HTML, CSS, JavaScript, face-api.js, Python (async API)

EDUCATION

Master of Computer Applications (MCA) **2023 – 2025**
SRMS College of Engineering & Technology, AKTU, Lucknow

B.Sc. in Mathematics **2020 – 2023**
Bareilly College, MJPRU, Bareilly

LANGUAGES

Hindi: Native | **English:** Professional
